

INDIAN HIMALAYAS CLIMBING CHRONOLOGY

(Summary)

“Indian Himalayas Climbing Chronology” was created based on the climbing records from 1600 to 2021. It is summarized in a chronological table using EXCEL in the order of climbing year, climbing period, mountain name, altitude, country, joint exp or not, organization, number of members, name of the leader, summiters, and references/materials, etc. The 2022 edition includes records of approximately 4500 teams. The names of the teams, leaders, members, summiters of Japanese teams are written both in English and Japanese. However, some of the pronunciation of the Japanese names written in Chinese characters are not known and may not be correct, I therefore crave your gracious consideration. Close attention was given to the references/materials so that they can be referred to as easily as possible.

“Indian Himalayas Climbing Chronology” is summarized using 8-point letters in A4 sized horizontal composition so that all the above mentioned items can be fit in one column. The 2022 edition has 106 pages written in the order of climbing year. It can be read with a magnifying lens. Furthermore, it would be much easier to read by enlarging it on a computer screen or with a copier in A3 size. The closest attention was given to the accuracy of the climbing records and materials by referring to the original materials as much as possible. However, there is a limit to the extent of our research and some records may be missing or incorrect. I therefore crave your gracious consideration, and if you notice any of them, please kindly let us know. If any opportunity is given, those missing or incorrect records will be revised.

If you wish to use this table or modify any part of this table, please kindly contact the editor while acknowledging the source. Contact information: okimmasato1935@yahoo.co.jp

(Acknowledgements)

For the creation of “Indian Himalayas Climbing Chronology”, I referred to many documents and materials. In particular, the following materials were indispensable - Himalayan Journal, American Alpine Journal, IMF News Letter (APEX), Himalayan Club News Letter (HCNL), Concise Foreign Mountain Name Dictionary(Sanshoudo, Tokyo, 1984), Himalayan Famous Peak Encyclopedia(Heibonsha, Tokyo, 1996) , Thrones of Gods - records of 6000m peaks (The Himalayan Association of Japan 2004), Thrones of Gods - records of 7000m peaks (The Himalayan Association of Japan 2004), Himalayan Handbook (Joydeep Sircar, Calcutta (Kolkata),1979), Handbook of Climbing in the Himalaya and Eastern Karakoram (Kankan Kumar Ray, New Delhi, 2009) I would like to take this opportunity to express my deepest gratitude to the all.
